Summary

Computer Science Engineering student with hands-on experience in Cloud Computing, Machine Learning, MERN Stack Development, and Data Visualization through internships and academic projects. Worked on applications involving AI, web development, and AWS cloud services. Skilled in applying technical knowledge to develop practical solutions and solve real-world problems. Seeking an opportunity to apply my knowledge, gain industry experience, and contribute to a professional team.

Education

Bachelor of Engineering, *SNS College of Technology*
Coimbatore
CGPA : 7.8

SSLC, HSC, *Nagini Vidyalaya Matric Hr. Sec. School*
GRADE: 77.17

Work Experience

- MERN Stack Developer**, *Synovers*

11/2025 – 12/2025

 - Utilized AI-assisted development tools to support the design and implementation of web application features.
 - Collaborated with team members to plan tasks, discuss solutions, and contribute to project development.
 - Participated in Agile development processes, providing daily progress updates and supporting sprint activities.
- AI & Cloud Intern**, *IBM -Edunet*

07/2025 – 08/2025

 - Built and trained machine learning models using IBM Watson AI Studio and custom datasets.
 - Worked with IBM Cloud services to support AI model development and deployment activities.
 - Coordinated with 20+ team members throughout project planning, development, and testing phases.
- Data visualization intern**, *Excelerate*

07/2025 – 08/2025

 - Developed dashboards and reports using Excel and Power BI.
 - Cleaned and organized data to ensure accurate reporting and analysis.
 - Worked with team members to understand requirements and create useful visual reports.
- AWS Intern**, *Techsnapie Solutions*

08/2024 – 09/2024

 - Managed and monitored EC2 instances, utilizing auto-scaling and load balancing techniques to ensure high availability and scalability.
 - Implemented S3 for secure and efficient storage solutions, optimizing data accessibility and durability.
 - Developed RESTful APIs through API Gateway, streamlining communication between applications

Skills

Languages & Frameworks

Python | Java | Linux | React.js | Flutter (dart) |
Django | Flask | Tensorflow

Tools & Platforms

Power BI | Canva | Figma | Streamlit | VS Code |
Firebase | Supabase | Github | Android Studio

Cloud & DevOps

AWS EC2 | AWS Lambda | AWS S3 | API Gateway | IAM
policies | AWS DynamoDB | Docker | Kubernetes

Concepts

Problem Solving | Team Management |
Communication | Adaptability & Flexibility |
Collaboration

Projects

Texperia, *Event Management System*

- Developed a full-stack event management platform with payment verification, QR-based attendance tracking, and automated email notifications.
- Integrated Google Sheets API, PDF generation, QR code services, and real-time registration workflows.
- Implemented secure backend services using Express.js with rate limiting, caching, and automated processing pipelines.

ThunaivanAI, *AI-powered Government Scheme Explainer*

- Developed a full-stack AI platform using React, Express, and PostgreSQL with support for Google Gemini and OpenAI models.
- Implemented authentication, document processing, and real-time communication features.
- Deployed the application on Vercel with a scalable and responsive user interface.

AuraSafe, *Women Safety MERN Application*

- Built a women safety web application with AI-based distress detection and SOS alerts.
- Integrated Gemini AI, Twilio SMS, and live GPS tracking for emergency response.
- Developed secure user authentication and real-time safety monitoring features.

Home Security Automation, *AI/ML Project*

- Built a smart security system using YOLOv8 and OpenCV for real-time intruder detection.
- Integrated face recognition to identify known individuals within a defined ROI.
- Triggered local buzzer alerts and used Twilio for cloud-based remote notifications.

Certifications

- | | | |
|---|--|---|
| • Deloitte Australia - Data Analytics Job Simulation - Forage | • Prepinsta Course: DBMS, OS, Data Structures, Python, Java, Cloud Computing | • AWS APAC - Solutions Architecture Job Simulation - Forage |
| • Graphic Design Essentials - Canva | • Python and Django Framework for Beginners - Udemy | |
